### Telephone Interviewer

*Access Research Inc - Montreal, Qc*

Sep 2016 – Aug 2017

- Communicated effectively with a variety of different people while being professional.
- Conducted surveys for a variety of organizations and businesses.
- Recorded data for an online customer database and ensured confidentiality of all collected data.

## PROJECTS

---

[Portfolio Website](#) | *Php, Laravel, Sqlite, Javascript, SCSS*

June 2025 – Present

- The site dynamically displays my projects using Laravel's Model-View-Controller architecture.
- Supports a contact form. Upon submission, the program securely sends the data to my email and simultaneously stores it in a database.
- I've integrated Google reCAPTCHA for bot detection and throttling to limit repeated submissions.

[Brands Web App](#) | *Php, Laravel, MySql, Javascript, Css*

June 2025 – Present

- Full-stack web application using a Laravel Backend to for the REST API
- Implemented a robust authentication system verifying the user using email.
- Features include, brand posts, comments, voting systems, filtering systems

[Note Web App](#) | *Java, Maven, MySql, Springboot, React, Git*

May 2025 – Present

- Developed a RESTful API using Java,utilizing the principles of object-oriented programming and class-based architecture.
- I'm using Transfer Object layers to ensure that only necessary data is exposed to the client.
- Users can Create, Read, Update, and Delete notes by manipulating API data on the front-end using react typescript .

## VOLUNTEER EXPERIENCE

---

### Youth co-op member

*Tyndale St-George - Montreal, Qc*

2015

- Cleaned up Parc Oscar-Peterson and L'Office municipal d'habitation de Montréal(OMHM)
